FROM THE HEALTH OFFICE

CDC recommends a yearly flu vaccine as the first and most important step in protecting against flu viruses. Symptoms associated with the flu include: Fever (although not everyone develops one), cough, sore throat, runny or stuffy nose, body aches, headaches, chills, tiredness, and sometimes diarrhea and vomit.

Everyday preventive actions to stop the spread of germs:

- Cover your nose and mouth with a tissue when you cough or sneeze.
- Wash your hands often with soap and water
- Avoid touching your eyes, nose, and mouth. Germs Spread this way.
- Get plenty of sleep.
- Eat healthy food and drink plenty of fluids.
- Try to avoid close contact with sick people.
- If you are sick with flu-like illness, CDC recommends that you **stay home for at least 48 hours after your fever is gone** to prevent the spread of germs. Your fever should be gone without the use of a fever-reducing medicine.

Please reinforce this at home with your children.

Registration is now open for the Musconetcong Watershed Association's (MWA) Camp Musky, an educational and fun day camp for kids ages 5 - 12+ years old. We offer an outdoor learning experience and hands-on, river-based programs. Our primary mission is education and awareness. We believe that a community that is fully aware of the importance and vulnerability of its natural resources is a community that will actively support efforts to ensure environmental quality. Campers will explore the beautiful MWA River Resource Center and adjoining 30 acres of preserved meadow, woods, and wetlands. More information and forms are available at <https://www.musconetcong.org/camp-musky> or email kyle@musconetcong.org.
