✓ 6th – 8th grade 11:30 – 12:30 am

Clinical Science-Based Therapy Programs for Attention, Processing, Memory and Reading

Fast ForWord

Evidence-based, adaptive reading and language program that delivers 1-2 years gain in 10-12 weeks for any struggling learner ages 6 and up.

Intensively Targeting the Skills Students Need to be Successful:

- Reading difficulties
- Auditory processing
- Learning disabilities
- ADD/ADHD
- Speech/language impairments

This game-based adaptive software is grounded in neuroscience to tackle the root of the problem for lasting results. The program is tailored to each student's needs. For more information about this program see our website.

Get Ready for Kindergarten!

We will work on letters/sounds, number sense, listening comprehension and following directions through books, songs, games, and hands-on practice.

Fridays 9:00 – 10:00 am

Classes run the following days:
8/4, 8/11, 8/18, 8/25

Reading Screenings (\$30)

Is your child ready to go back to school?

PACE Cognitive Training

How do you focus better, think faster, and remember more?

You have to **TRAIN** your **BRAIN**!

This intensive, research-based, 10-week brain training program is for anyone ages 10 and up who may struggle with:

- Processing Speed
- Memory
- Attention
- Visual and Auditory Skills
- Problem Solving & Reasoning
- Executive Functioning

One-on-one brain training consists of **non-academic exercises** (games) with immediate feedback to build automaticity. For more information about this program see our website.

See our website for complete descriptions, pricing and registration.
